THE FINAL CUT

Casting Call

Primary Suspects

Eddie Cheek: A former script reader for Tantamount Films, now a director (and legend in his own mind). His hero is B movie director Ed Wood, Jr.

Cherri Pitt: She has the female lead of Kat Klondike in Eddie's picture. It doesn't matter how she got it, she just has it. For now.

Nova Devoe: She wants the lead and she always gets what she wants.

Rock Stud: The male lead in Zombie. He hasn't had much work since his television series, Sky Fling, Pilot PI, so this job is a welcome one. He and Cherri are a hot item.

Stefan Stiles: He's the make-up artist and a supporting actor in all of Eddie's movies. They met literally by accident.

Billie Clubb: A casting agent who's working with Eddie to cast this picture. Word has it her company is going bankrupt so this job is probably pretty important to her.

Dr. Kildare: Rock's therapist - he's on Rock's payroll and therefore goes wherever Rock wants him to be available for counseling. Dr. Kildare should be at the ready to expound on the meaning of Rock's behavior and everyone else's for that matter. He should be the shoulder Rock cries on - a little too often.

Mrs. D'Wiggins: A bumbling, clueless, incompetent assistant to casting agent Billie Clubb.
